Other Business

Executive Director's Report

This report will be submitted at a future date.

Additional financial information will be provided at a future date.

Newsletter

The next regular newsletter will be submitted to the general membership in late November / early December.

Old Business / Projects

The Pi Chi History Book is now computerized and is currently being edited by ERick Smith. The committee needs to also go through old photos, identify the personnel in the photos, and select the appropriate photos for each section / chapter. There needs to be a one page written introduction for each 5 year chapter. If anyone is interested in assisting with this process contact either ERick Smith or Gerry Wegner.

David Fincannon will be presenting at the 2008 Purdue Pest Management Conference, "Progressive Pest Management – Building the Foundation". This program will utilize some of the Filmed interviews that he has made with some of our industry greats, such as John Osmun, Harry Katz, Norm Ehnman, etc.

General Announcements / Housekeeping

David Fincannon suggested that the organization needs to look into the creation of endowments that can be used for the scholarship fund. These endowments could be "named" scholarships in an effort to raise funds for these scholarships. There needs to be

a letter drafted in an effort to solicit both interest and funds from the general membership. Gerry is to contact Paul Bello to determine if he has retained any information from his Directorship of the Endowment Committee.

David Fincannon suggested that the organization draft a letter in an effort to curb some of the misinformation that is being submitted and published with regards to recent articles in AmeRickan Entomologist. David will send copies of the articles to the Pi Chi Board and draft a letter in response for review.

A motion was made to adjourn the meeting at 11:05 by Cisse Spragins and seconded by Gerry Wegner.

Respectfully submitted by,

Kim Kelley-Tunis
Secretary
